Polteq's mobile app test consultant [Marc van 't Veer](#) and Julian Harty have written the chapter about testing in the 17th edition of the Mobile Developer's Guide to the Galaxy.

[Download or read their chapter about testing here.](#)

The Mobile Developer's Guide to the Galaxy is a comprehensive manual for beginners and professionals in the mobile business, with more than 320 pages on app design, UI and UX design, app programming and app marketing. This handbook for app developers, designers and managers is independent, objective and… free!

This project was initiated in 2009 with the aim to spread knowledge about mobile technologies and to encourage people to enter the community or deepen their existing knowledge. With this edition, [OX](#) took over the project and will be driving it forward.

More than 20 writers from the mobile community share their know-how in dealing with topics such as accessibility in mobile apps, UX design, mobile analytics, prototyping, cross-platform development, native development, mobile web and app marketing.
