

Polteq in 2018 again iSQI Finest Partner

Frank Frambach, Managing Director of iSQI Netherlands, hands over the Finest Partner award to Anja Bakker, Manager of the training department at Polteq.

Polteq was once again voted iSQI Finest Partner.

iSQI is an institute that provides exams for all ISTQB training courses. For Polteq iSQI is the certification partner in that area. In addition, iSQI develops certification training in the field of Agile and examines it.

Polteq offers iSQI Certified Agile Testing and Certified Agile Business Analyzes training courses. Polteq also has a relationship with iSQI in the field of the Mobile App testing and automation certificates (CMAP) developed by them. Polteq provides these training courses (and exams) as well.

The collaboration between iSQI and Polteq has been successful for many years. The fact that Polteq will again be named Finest Partner this year is a visible proof of this.
